

Description

It is suitable for the lighting of buildings, curtain walls, residential areas, commercial plazas, high-end office buildings, bridges, highways, etc.

Features

- * Reasonable heat dissipation path design enables the heat of the LED to be quickly conducted through the luminaire structure to ensure the luminous efficiency and lifespan of the LED;
- * Waterproof, dustproof and corrosion resistant;
- * Uniform luminescence, high luminous brightness.

Specifications

Model	TL-LH5311
Input voltage/power	DC24V/50Hz/9W
Number of LEDs/light sources	Epistar/2PCS
Beam angle	3°
Color temperature	3000K (1900, 2100, 4000, 5700K optional)
Control mode	/
Installation method	fixed
IP rating	IP65
Product size (L×W×H)	90×90×40mm
Certification	CE/ROHS
