

# LED Windowsill Light

## TL-LH5201

### Description

It is suitable for window sill lighting of hotel and government building lighting project.

### Features

- \* Ultra-condensing glass lens, anti-ultraviolet, light transmittance as high as 95% or more, not easy to corrode and prevent damage.
- \* The outlet adopts stainless steel waterproof screw cap to prevent rain and dust, and the waterproof grade is IP65. The base adopts a sealing rubber ring to achieve high-strength waterproof.
- \* Long-lifespan power drive to ensure a service life of more than 50,000 hours, with multiple protection functions such as short-circuit protection, open-circuit protection, and overheating protection to synchronize with the lifespan of the LED lamp.

### Specifications

Model	TL-LH5201
Input voltage/power	AC220V/50Hz/12W
Number of LEDs/light sources	CREE
Beam angle	3° 180°
Color temperature	3000K(1900,2100,4000,5700K optional)
Installation method	Fixed
IP rating	IP65
Product size (L×W×H)	152×65×95mm
Net weight	0.6KG
Certification	CE/ROHS
